

A 1,000,000 POUND CREAMERY

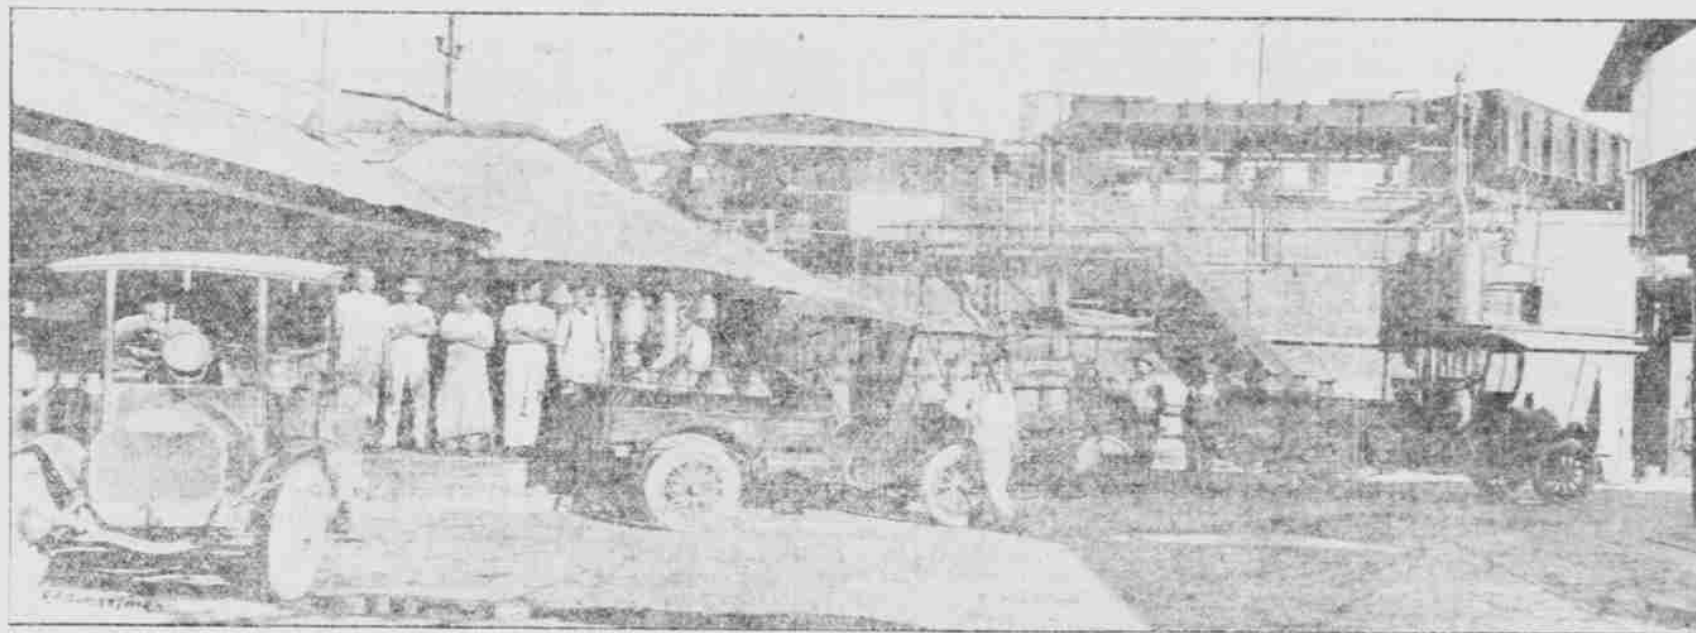

The Maricopa Creamery, South Third Avenue, Phoenix, Arizona

For the first time in the history of the state, Arizona now has a 1,000,000 pound creamery, that is, one producing a million pounds or more of butter annually. The output of the Maricopa Creamery from January first, 1915, to November 28th 1915, was 1,004,175 pounds, and it is estimated that its total Butter Production for 1915 will Be Over 1,125,000 Pounds

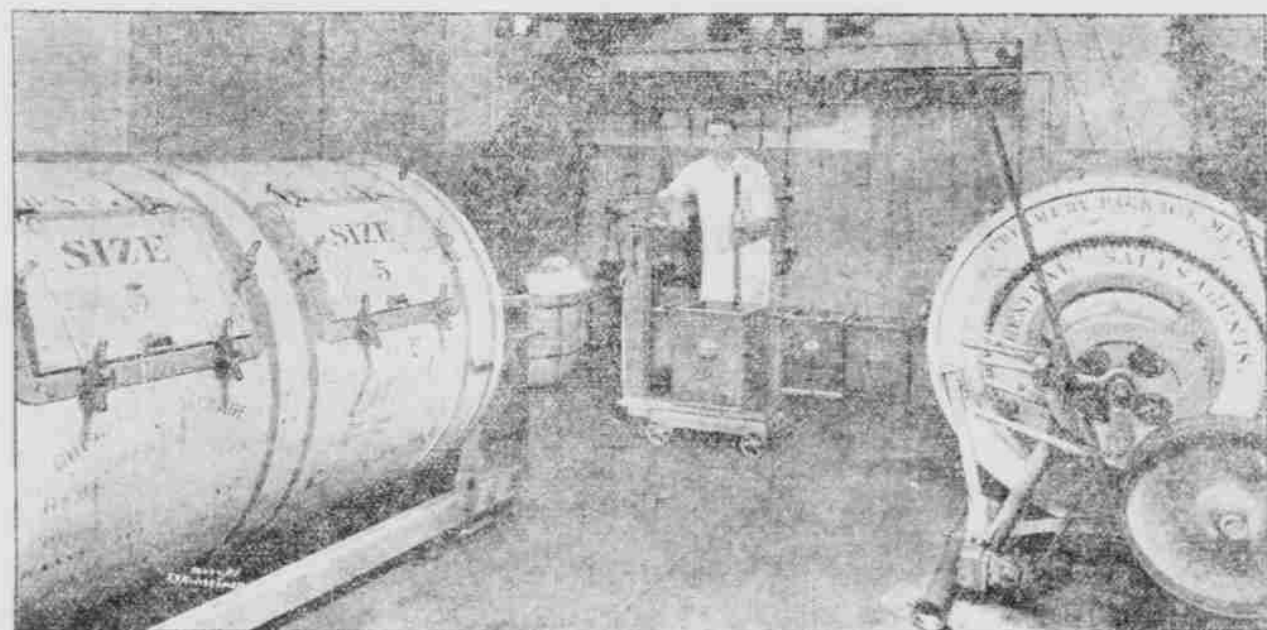

(This is exclusive of our cheese and sweet cream business)

We Thank Our Five Hundred Patrons

We thank our five hundred patrons for their co-operation which has made this record possible. Six years ago, when the present management took charge, their first month's production was 5,380 lbs., while our November output was 114,410 lbs. Six years ago this creamery was receiving milk and cream from only 30 patrons, and the factory force included eight persons. Today over 500 patrons send their product to us, and a force of 28 people is required to handle it, while in addition we employ five mechanics in our machine shop. We feel that this satisfactory showing is a proof of the spirit of genuine co-operation that has always marked the relations of the Maricopa Creamery with its patrons.

A busy corner of the plant, where 150 nearby dairymen and our eight cream-gathering trucks deliver cream daily

Where over two tons of fine butter are churned daily

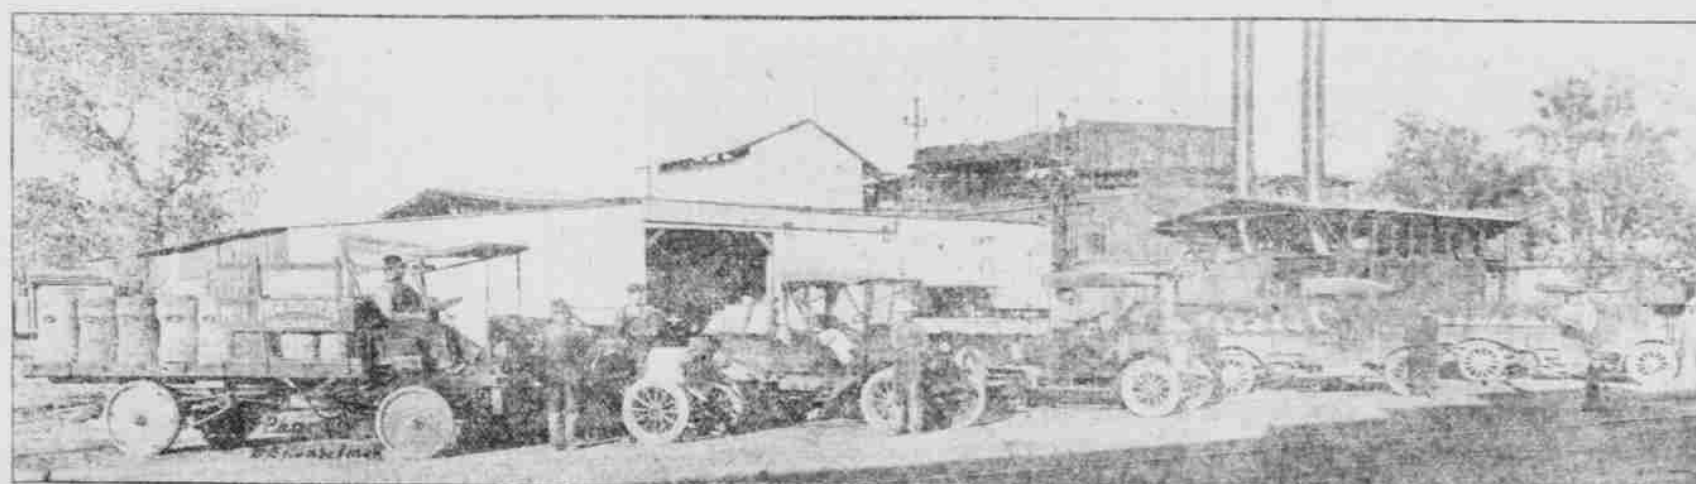

Where the butter is made into prints and packed for shipment

The cheese wagon, bringing in the product of the Maricopa Cheese Factory, driven by our oldest employe, F. B. Wright

"The
old
and
the
new"

We operate eight auto-trucks which cover the entire Salt River and Buckeye Valleys. View of plant from Jackson street.

MARICOPA CREAMERY COMPANY

B. G. Webster, President and General Manager.

Dudley B. Webster, Treasurer

Emery Kays, Secretary.

The quality of our product has gained for it a wide distribution throughout Arizona, southern California, New Mexico and western Texas. Note—We do a strictly wholesale business.
